Re: The Estate of Jennifer Kane v. The Republic of Iraq

Dear Mr. Glen:

At your request, we assess the economic loss as a result of the death of Jennifer Kane on September 11, 2001. We reserve the right to amend this report upon receipt of any additional relevant information.

I. BACKGROUND

Unless cited, all the below information was expressed to us by counsel or family members of Jennifer Kane.

Jennifer Kane was born on March 12, 1975. At the time of her passing, she was 26.5 years of age and employed by Marsh & McLennan in an Accounting capacity. Prior to employment with Marsh & McLennan, Ms. Kane was working for RGL Gallagher, who was acquired by Marsh & McLennan. RGL Gallagher's specialty was the area of Forensic Accounting, an area which Marsh & McLennan wished to include in their business offerings. Ms. Kane completed a Bachelor's degree in Accounting from Villanova University in 1997. Ms. Kane was a licensed Certified Public Accountant. Additionally, Ms. Kane was interested in eventually pursuing her Master's in Business Administration. Ms. Kane is survived by her parents, George and Faye Kane, as well as her sibling. At the time of Ms. Kane's passing, she was residing in Fair Lawn, New Jersey.

This report has been prepared for the use of counsel in the instant matter. Given the personal, financial and/or medical information contained herein, any transmission, copy, or utilization of this report or material contained herein is strictly prohibited without the written consent of the Center for Forensic Economic Studies.

II. EARNINGS HISTORY

According to Ms. Kane's 2001 US Individual Income Tax Returns, she reported earnings of \$50,626 through the date of her passing, September 11, 2001. This figure annualizes to \$72,323.

III. WORKLIFE AND LIFE EXPECTANCY

Ms. Kane would have been able to begin collecting Social Security retirement benefits as early as age 62 or deferring retirement benefits until as late as age 70. Based upon Ms. Kane's year of birth, her normal retirement age would have been age 67 under the current Social Security Administration's rules. Accordingly, we assume continuous worklife of 40.5 additional years to age 67.0, Ms. Kane's full Social Security retirement age.²

Ms. Kane's statistical life expectancy, calculated from her age on the date of her death, was to age 81.9 in the year 2057 according to the New Jersey Life Tables.³

IV. LOST EARNING CAPACITY

During Ms. Kane's memorial service on September 22, 2001, her former boss at RGL Gallagher, Ken Giambagno, gave a speech⁴ in which he mentioned Ms. Kane was a special individual and that the partners spoke highly of her. Mr. Giambagno further stated that within the company Ms. Kane was greatly respected. Mr. Giambagno also noted that he observed Ms. Kane routinely assisting her colleagues with their own assignments on top of having her own busy schedule.

⁴ The notes from this speech are attached to the end of this report as Exhibit 1.

To estimate Ms. Kane's lost earning capacity, we utilize data from the Accounting and Finance 2019 Salary Guide from Robert Half.⁵ Relevant data from this guide is depicted below in Table A:

Table A: Robert Half Accountant Salary Data (2019)				
Title/Adjustments	25th	50th	75th	95th
Forensic Accountant	76,000	92,000	109,500	144,750
Market Adjustment (New York, New York)	106,780	129,260	153,848	203,374
General Accountant	76,250	92,000	109,750	142,000
Market Adjustment (New York, New York)	107,131	129,260	154,199	199,510

We utilize the market adjusted 25th percentile earnings for Forensic Accountants, \$106,780, as our base of Ms. Kane's earning capacity in 2001. Additionally, we adjust the 2019 data to 2001 dollars and arrive at \$68,366.⁶⁷ We further assume that by January 1, 2021 (approximately 20 years from the incident), Ms. Kane would have earnings equal to the 95th percentile earnings for Forensic Accountants, \$203,374.

V. EARNINGS GROWTH

1. Past Growth

To estimate earnings growth from 2001 to the present, we rely on the annual change in average hourly earnings for workers in the private, non-farm sector of the economy.⁸

2. Future Growth

Future earnings growth is estimated to be 2.82% per year. This rate represents the average annual rate of change in average hourly earnings for workers in the private, non-farm sector of the economy from 1998 to 2018.⁹

VI. TAXES

Federal and state taxes are calculated and deducted using Federal and New Jersey state tax rates. In calculating Ms. Kane's average income taxes, we assume that she would file as single through 2042. The tax rate applied to Ms. Kane's earnings is equal to 23.7%. ¹⁰

⁵ https://www.roberthalf.com/salary-guide

⁶ \$106,780 * .64 (reduction of 36% utilizing Average Hourly Earnings data from 2019 to 2001 dollars)

⁷ As mentioned above in Section III, Ms. Kane's 2001 earnings through September 11, 2001, \$50,626, annualize to \$72,323.

⁸ U.S. Department of Labor, Bureau of Labor Statistics, http://www.bls.gov/data, Series ID: CEU05000000008 2000-01: 3.71%, 2001-02: 2.89%, 2002-03: 2.74%, 2003-04: 2.02%, 2004-05: 2.81%, 2005-06: 3.91%, 2006-07: 4%, 2007-08: 3.67%, 2008-09: 3.05%, 2009-10: 2.36%, 2010-11: 2.05%, 2011-12: 1.54%, 2012-13: 1.98%, 2013-14: 2.38%, 2014-15: 2.04%, 2015-16: 2.43%, 2016-17: 2.41%, 2017-18: 2.95%

⁹ U.S. Department of Labor, Bureau of Labor Statistics, http://www.bls.gov/data, Series ID: CEU0500000008

VII. PERSONAL MAINTENANCE EXPENDITURES

In our analysis, we reduce our estimate of lost earnings in order to reflect the expenditures which Ms. Kane would have incurred for her personal maintenance. Studies of personal consumption show that the percentage of income allocated to such expenditures depends on household size and income level. Using data from the *2016-17 Consumer Expenditure Survey* (CEX), we deduct between 39.4% and 64.0% from annual earnings to account for these expenditures.¹¹

VIII. FRINGE BENEFITS

According to a study conducted by the U.S. Department of Labor, workers in the U.S. economy receive retirement benefits equal, on average, to 5.5% of annual earnings.¹² We employ this rate in projecting lost fringe benefits.

IX. PRESENT VALUE

Future values are discounted to their present value in recognition that a lump sum will be awarded in the present year and the recipient will be able to invest this principal amount received. We also recognize that in addition to the principal amount received, a substantial portion of the interest received in the years following the award will be reinvested.

In calculating present value, a distinction is made between the rate of return on the principal and that received on the reinvested interest. The average yield on high-grade Municipal Bonds as of August 3, 2019, 3.30%, was used to estimate the return on the principal investment.¹³ The average yield on these bonds from 1999 to 2018, 4.31% per year, was used to estimate the return on the reinvested interest.¹⁴

X. TABLES

Table 1 shows lost earning capacity assuming 95th percentile earnings for Forensic Accountants, \$203,374 by January 1, 2021, and worklife to age 67.0.

XI. SUMMARY

As outlined in the attached Summary Table, the total lost earning capacity is equal to \$2,650,230. It should be noted that our estimates of economic loss do not include Ms. Kane's pain and suffering, or any additional elements of non-economic damages.

Please do not hesitate to contact us if you have further questions.
